

Developed for First Responders, Show Management, Building Personnel, Security Teams, etc. to Immediately Convey & Pinpoint Where an Actual Occurrence Is Happening at An Event or To Locate A Security Breach or an Event Concern Teams Communicate Simultaneously to Identify the Targeted Area

ELI™ Saves Precious Seconds or Minutes in Any Emergency or Operational Issue Needing Immediate Assistance. Location Links Assist in Responding Faster and Accurately Using Any Venue Indoors or Out, Including Loading Docks, Classrooms, Hallways, Parking Lots, Lobbies or Anywhere the Event Reaches

Uses Standard Smart Phones - No APP Required

Side Benefit: Searchable Interactive Floor Plan of the Venue and Exhibitors.

Easy Set-Up and Implementation - Affordable

Customers Do Not Have to use EXPOCAD® Event Management Software to Utilize ELI™

Indoors or Outdoor, any Venue  
Applicable for Non-Emergency Operations Needs such as Exhibitor Violations.  
Offers Discreet and Non-Verbal Communication to Prevent Inflating an Occurrence.  
Uses Text Messaging, a More Reliable and Undetectable Form of Communication.  
Will Not Be Intercepted by Other Types of Radios and Frequencies or Scanners

A Single Click Location Indicator on the Event Map Will Notify the Appropriate Individuals Such as Security Chief, Show Manager, Venue Personnel...  
Emergency Location Links Are Ideal for Pinpointing Where Immediate Attention Is Required Such as an Active Shooter, Unknown or Suspicious Package, Fire, Medical Emergency...
