Product Showcase

AARDVARK MECHANICAL SPECIAL
Finest in Greenhouses and Supplies

An industry tradition, the Gothic Arch design is functional at both shedding snow and combating overhead drip. This galvanized steel greenhouse is equally at home as a growing area or sophisticated retail center. Choose from several sizes and load ratings. Each structure includes the complete building frame and long-lasting firm twinwall polycarbonate covering. Add the optional accessories below to complete a fully operational commercial greenhouse that will fit your particular needs. This galvanized steel building can be engineered to meet almost any load rating.

The iGrow 1400
Green House Control

The iGrow 1400 is an ideal controller for small to mid size structures. It has 12 relay outputs, 2 alarm outputs, 8 sensor inputs, and manual override switches to control all your equipment. iGrow1400™ has intelligent heating/cooling, humidity, CO2, shading, vent, bottom heat, HID lighting and irrigation control to create the perfect environment for your livestock. Advanced features like 12 stages of heating/cooling, stage overrides, 4 setpoints that can be astronomically adjusted, flexible dehumidification control, heat boost, up to 30 day historical data storage.

Glacier-Cor Cooling System
works together with your greenhouse fans to lower
