

# E L I™ Emergency Location Interactive

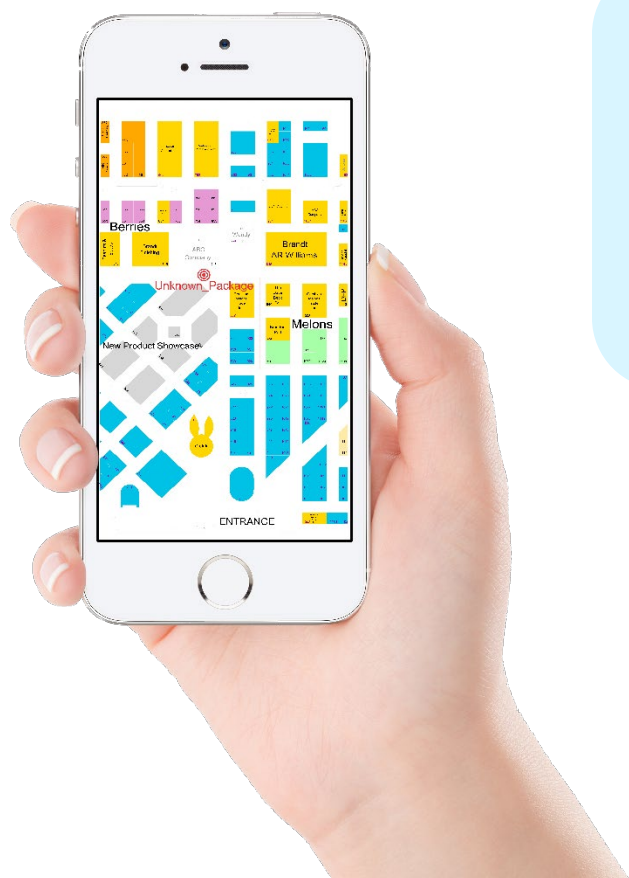

Technology for Location Based Security by EXPOCAD®

Developed for First Responders, Show Management, Building Personnel, Security Teams... to Immediately Convey & Pinpoint Where an Actual Occurrence is Happening at an Event or to Locate a Security Breach or an Event Concern Teams Communicate Simultaneously to Identify the Targeted Area.

Location Links Assist in Responding Faster and Accurately Using Any Venue Indoors or Out, Including Loading Docks, Classrooms, Hallways, Parking Lots, Lobbies or Anywhere the Event Reaches

ELI™ Saves Precious Seconds or Minutes in Any Emergency or Operational Issue Needing Immediate Assistance. Uses Standard Smart Phones - No APP Required Easy Set-Up and Implementation - Affordable

A Single Click Location Indicator on the Event Map Will Notify the Appropriate Individuals Such as Security Chief, Show Manager, Venue Personnel... Emergency Location Links are Ideal for Pinpointing Where Immediate Attention is Required Such as an Active Shooter, Unknown or Suspicious Package, Fire, Medical Emergency...
